SKILLS

Languages:	C++, Java, JavaScript, Python
Frameworks:	HTML, Tailwind CSS, ReactJS, NodeJS
Tools/Platforms:	MySQL, MongoDB, VS Code, Git and GitHub
Soft Skills:	Problem-Solving, Logical Reasoning, Collaboration & Teamwork, Adaptability

PROJECTS

Real-Time Ride-Hailing Web Application: GitHub	Nov' 2025
- Implemented a ride-hailing web application supporting passenger bookings, driver ride acceptance, and administrative oversight with real-time system updates. - Handled key features such as user and driver authentication, ride requests, live ride tracking, and separate dashboards for users, drivers, and administrators using role-based access control. - Integrated real-time communication and a scalable backend workflow that optimized ride assignment, reduced response delays, and ensured a smooth end-to-end booking experience. Tech: React (Vite), JavaScript, CSS, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Socket.IO	
Online RSVP Management System: GitHub	Apr' 2025
- Developed an online RSVP Management System that streamlines event invitations, automates guest responses, and helps organizers efficiently manage attendee information. - Designed core modules including Signup, Login, Event Creation, Guest Management, and an automated email notification system with a focus on secure authentication and smooth user navigation. - Delivered a fully functional and responsive RSVP platform that improved the accuracy of guest response tracking and significantly reduced manual coordination efforts. Tech: PHP, MySQL, HTML, CSS, PHP Mailer	
Outfit Planner Chatbot: GitHub	Mar' 2025
- Created an outfit planning chatbot that provides personalized clothing recommendations based on real-time weather data and user preferences. - Built core modules for real-time weather fetching, chat interaction, user preference handling, and automated outfit suggestions with a focus on smooth animations and responsive UI flows. - Enabled an interactive and responsive chatbot experience that generated accurate weather-based outfit recommendations and enhanced user engagement. Tech: Next.js 14, TypeScript, Tailwind CSS, Framer Motion, OpenWeatherMap API	

TRAINING

Java Maestro (GUI Development) Training Lovely Professional University	Jul' 2025
- Gained hands-on experience in developing interactive Java GUI applications using industry-relevant tools and concepts. - Completed structured training covering Swing, AWT, object-oriented programming, event handling, and GUI design principles, including building practical applications like a Quiz App. - Strengthened Java GUI development skills and successfully built functional, event-driven desktop applications with clean and interactive user interfaces. Tech: Java, Swing, AWT, OOP, Event Handling, GUI Design	

CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate ORACLE	Sep' 2025
Cloud Computing NPTEL	Apr' 2025
Responsive Web Design FreeCodeCamp	Oct' 2023

ACHIEVEMENTS

Tackled 200+ DSA problems on LeetCode , demonstrating problem-solving dedication.	Nov' 2025
Earned 4-star C++ rating on HackerRank , showcasing strong programming skills.	Nov' 2025
Secured 1st Runner-up position in C Programming Quiz Event at Lovely Professional University.	Apr' 2024

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA:8.1	Aug' 2023 – Present
Nath Public School	Lakhisarai, Bihar
Intermediate; Percentage:75.8	Apr' 2022 – Mar' 2023
Nath Public School	Lakhisarai, Bihar
Matriculation; Percentage:76.4	Apr' 2020 – Mar' 2021
